5 Years later

The new age decking from 100% farmed Bamboo plantations. Through years of R&D, BB Deck serves as the most durable and aesthetically sound decking in the market. *Laboratory test reports had proven BB Deck to be outstanding as compared to traditional timber deckings, with low to near no maintenance needed, BB Deck serves its purpose for the generation today. Its nail-less installation methods provides a safe environment for pets and young children. The natural colour creates that Zen space you have always dreamt of and its rich fibrous strands also makes it resistance to potential slips and falls.

Choose BB Deck in protection of our wildlife and against eco-warming.
